

Bio-bin[®] 1 Ltr

Bio-bin is a new generation infectious waste container that helps you save money and the environment by considerably reducing the amount of plastic being incinerated every year.

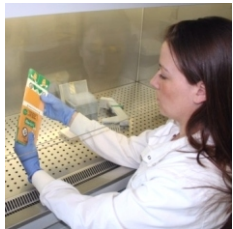

Designed for non-sharp infectious waste, it has a 96% paper construction that is easy to use and is UN approved to standard UN 3291.

No Sharps

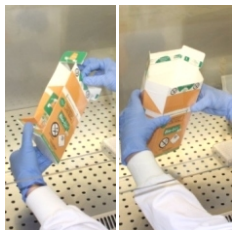

UN 3291 approved

Bio-bin[®] 1Ltr has the new fold-flat design, making it even more space efficient.

100 units are supplied in 1 outer box.

Bio-bin[®] 1Ltr simple unfolding method has the Bio-bin ready for use in seconds.

New super absorbent **Bio-matt[™]** will soak up approximately 250ml of liquid in minutes and turn it into a gel.

Bio-bin[®] 1Ltr is designed with its own built in lid. The bin is closed by simply folding the lid down. Clear instructions are printed on every bin. Temporary seal keeps contents safe when not attended.

Bio-bin[®] 1Ltr has a section of strong adhesive that keeps the bin sealed and leak proof. The bin can be autoclaved or sent direct for final disposal.

Now with built-in **Bio-matt[™]** (super absorbent)
