

## Bio-bin<sup>®</sup> 2Ltr

Bio-bin is a new generation Infectious waste container that helps you save money and the environment by considerably reducing the amount of plastic being incinerated every year.

Designed for non-sharp Infectious waste, it has a 96% paper construction that is easy to use and is UN approved to standard UN 3291.

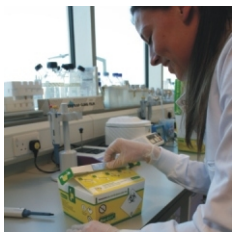

No Sharps

UN 3291  
approved

**Bio-bin<sup>®</sup> 2Ltr** nests inside itself, making it very space-efficient to store. 100 units are supplied in 1 outer box

**Bio-bin<sup>®</sup> 2Ltr** features a temporary seal allowing the bins contents to be kept safe when not attended.

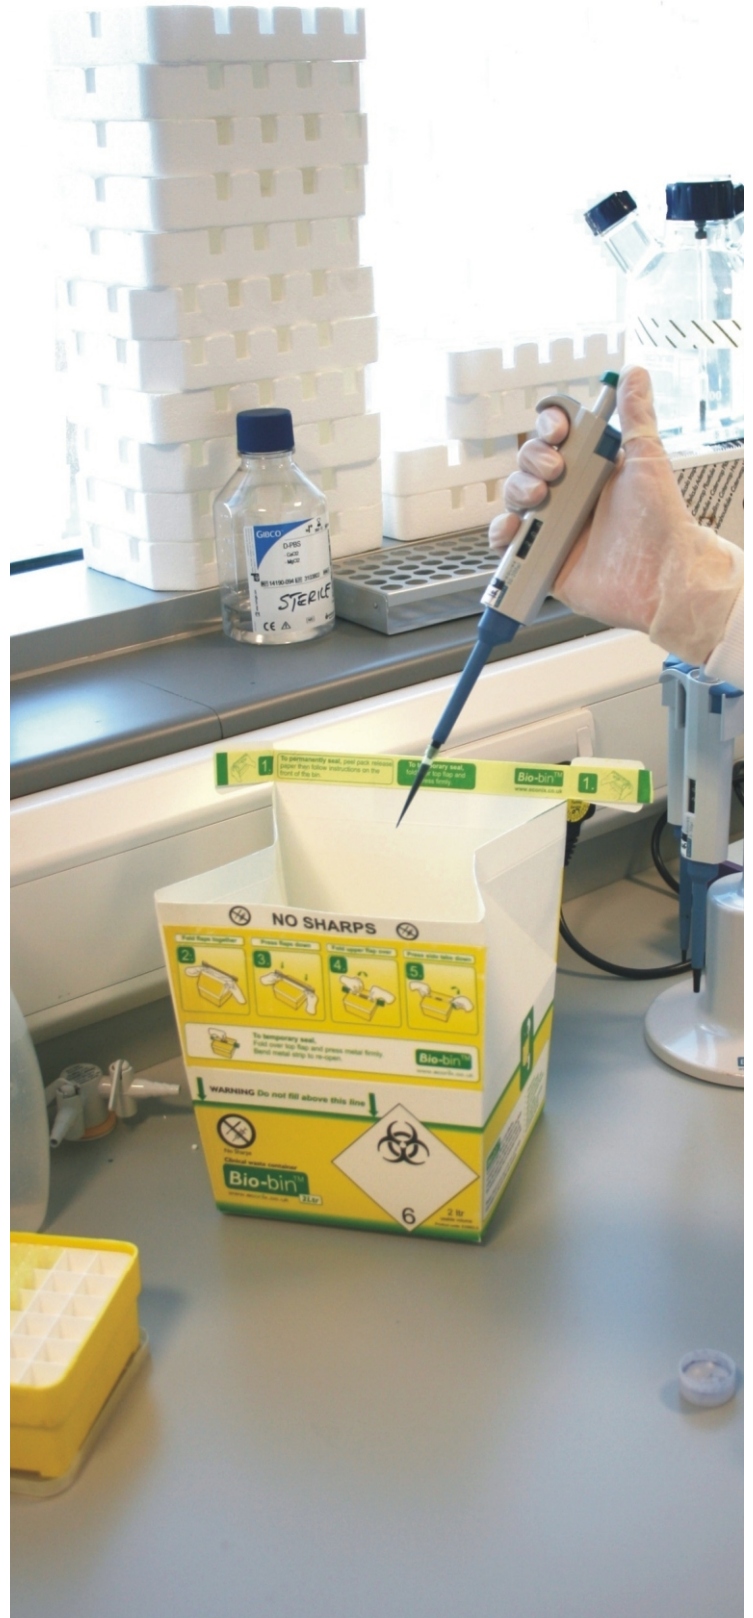

New super absorbent **Bio-matt<sup>®</sup>** will soak up approximately 1ltr of liquid in minutes and turn it into a gel.

**Bio-bin<sup>®</sup> 2Ltr** is designed with its own built in lid. The bin is closed by simply folding the lid down. Clear instructions are printed on every bin.

**Bio-bin<sup>®</sup> 2Ltr** has a section of strong adhesive that keeps the bin sealed and leak proof. The bin can be autoclaved or sent direct for final disposal.

Now with built-in **Bio-matt<sup>™</sup>** (super absorbent)
