

No Sharps

UN 3291 approved

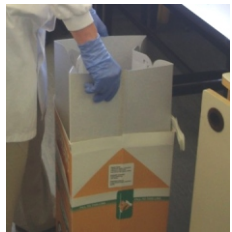

Bio-bin[®] is a new generation waste container that helps you save money and the environment by considerably reducing the amount of plastic being incinerated every year.

Designed for non-sharp infectious waste, it has a 96% paper construction that is easy to use and is UN approved to standard UN 3291.

Bio-bin[®] 30Ltr NEW FLAT-FOLD design comes folded flat with a **Bin-sert[™]** in a box of 10

Unfold **Bio-bin[®]** 30Ltr and slide **Bin-sert[™]** into the bin.

Instructions are printed on the side of every **Bin-sert[™]** 30Ltr

Bin-sert[™] 30Ltr tabs should be pushed down and locked into place before use.

New super absorbent **Bio-matt[®]** will soak up approximately 2ltr of liquid in minutes and turn it into a gel.

Bio-bin[®] 30Ltr is designed with its own built in lid which simply folds down to close. Clear instructions are printed on every bin. Temporary seal keeps contents safe when not attended.

Bio-bin[®] 30Ltr has a section of strong adhesive that keeps the bin sealed and leak proof. The bin can be autoclaved or sent direct for final disposal. Two handles provided for heavy lifting

Now with built-in **Bio-matt[™]** (super absorbent)
