

Reindeer Lodge: Cabins & Lávvu-tents

Accommodation the Sámi way. An eco friendly camp situated in the forest. Stay in a modern, comfortable wilderness cabin or a genuine Sámi tent at a peaceful place. Savour the moment of silence with nature and wildlife just around the corner as your nearest neighbour.

Reindeer Lodge is remotely situated in the taiga forest outside Jukkasjärvi village and only 3 km from the Icehotel area at the shores of the river Torneälv. During winter you find here enclosures for our reindeer, but in summer and autumn the camp is only used for accommodation.

Cabins - Reindeer Lodge has four double bed cabins (á 20 m²). With a sofa bed (1.60 x 1.80 m) the cabins can accommodate up to four persons each. The cabins are equipped with a wood stove for cosiness.

Lávvu-tents - Reindeer Lodge has four Sámi tents called lávvu. With twigs and reindeer skins on the ground you have the real and genuine mattress. The lávvus are equipped with an open fire place. Up to 4 persons can sleep in one lávvu. If you want to experience the traditional accommodation of the Sámi people - a lávvu is your choice.

A separate timber log building serves as a communal self-catering facility with kitchen and stove.

There is no WC at the lodge but we have a comfortable lavatory with a multi toilet as well as a sauna facility where you can have a wash.

Reindeer Lodge offers an excellent starting point for walks in the forest, or why not taking a swim in a nearby creek. To pick berries in the colourful autumn can be quite an adventure, not to mention eating them afterwards.

The perfect accommodation for travellers. Reindeer Lodge is easily accessible by car, situated only 20 km outside Kiruna Centre.
