CX²

CX² PRO

MAXIMUM PERFORMANCE AND COMFORT PAIRED WITH SECURITY

The **SOL** competition and XC harnesses for pilots focused on results. Our development team worked hard and our best pilots tested these harnesses in the most extreme conditions - hundreds of km flown, lots of hours spent in the air and a new World record** was set on the **CX2**. These facts establish a superior product.

** Marcelo 'Ceceu' Prieto - World record holder of 462 km and owner of 3 distance flights above 400km.

TECHNICAL INNOVATIONS

- ABS System;
- Extended speed pulley;
- Waist Adjustment;
- Side adjustment;
- Quick lock leg buckles;
- Passage to radio;
- 3 x side pocket;
- Foot Stirrup (**CX 2**);
- 30L rear storage compartment;
- Adjustment straps manufactured according to DHV norm;
- Anatomic padded shoulders to avoid attrition with neck;
- Radio pocket;
- Independent bridles system according to DHV norm;
- Safety-Cobra T chest buckle (38-55 cm);
- Passage for ballast hose exit;
- Back composed by ergonomic foam;
- Graduated adjustment system to facilitate RS release, fly position adjustments, tensioning of speed bar;
- Polypropylene side plate for better load distribution;
- Speed system and foot stirrup fixation;
- Polypropylene plate for impact absorption;
- Redesigned reserve system;
- Pocket for camelbak fixation;
- 25mm foam seat,
- Failure safe RS handle;
- Removable neoprene leg cover;
- Removable instrument support container;
- Removable pocket of instrument support container;
- Space for 2 x ballast container;
- 18cm foam back Protector ;
- Compression strap of leg cover extremity;
- Space for hook knife in the shoulder pad;
- Ballast Container (10L);
- 10L front ballast container support strip;
- Neoprene safety cover on reserve bridle connection;
- Speed pulley 28mm;

MATERIALS

Fabric:

- Cordura®
- High Tenacity Rip Stop Nylon

Buckles and hardware:

- Australpin
- ISR
- Charly-Finsterwalder
- National Molding

Straps:

- Poltex: Polyamide and High tenacity Polyester

Finishing:

- Neoprene
- Zipper YKK
